Length	3 years	Languages	English	Diploma	HEIP Diploma

Objectives of the Program

The Bachelor of Arts in Humanities is an **innovative, multidisciplinary, and internationally-oriented program** designed to provide students with a comprehensive understanding of global challenges, politics, and society.

The program offers a **broad comparative study of International Relations and Political Science**.

The program

The program is structured around **6 skill units** :

- **Politics and social sciences**
- **A world in perspective**
- **Understanding the International System**
- **History and philosophy**
- **Professional skills & Methodology**

The Bachelor offers technical and operational skills:

- **Technical skills:** Public speaking and rhetoric, learn to write speeches, essays and reasoning.
- **Methods:** Use new project management and Design Thinking methodologies.
- **Humanities:** Manage a project team, encourage collaborative work
- **Associative life:** Commitment to humanitarian associations to reinforce team cohesion, develop practical skills, establish a network

Teaching Methods

Each semester, students are supported in their preparation for the professional world, the realization in their projects and the organization of conference cycles.

You learn through **case studies, simulations, practical projects, seminars, group work and more**.

Evaluation Methods

Course validation is based on continuous assessment via :

- **case studies**
- **professional role-playing exercises**
- **written reports with oral defense**

HEIP, 125 years of expertise

HEIP, a pioneer in the fields of political science and international relations, was built around three very strong values that we still defend today:

- Educate enlightened citizens
- Innovate to adapt to the changing world
- Train accomplished professionals

These core values are the real strengths that HEIP puts at the service of its students. You will find in each of its programs :

- **Academic expertise**
- **Numerous partnerships and collaborations:** public institutions, companies, ministries, local authorities, government agencies, etc.
- **A diversity of teaching staff:** research professors, professionals and international contributors
- **A focus on market needs:** each programme is regularly reworked to meet the demands of recruiters
- **A variety of assessment methods** to ensure that you excel in your career
- **Innovative teaching methods**
